

PROFESSIONAL SUMMARY

Cross-disciplinary Enterprise Architect and Systems Reliability Engineer with 15 years of end-to-end technical experience spanning physical telecommunications infrastructure (Layer 1 subsea & optical backbones) to cloud-native DevSecOps, enterprise BSS/OSS, and financial systems governance (Layer 7).

Combines hands-on infrastructure execution, automated multi-cloud architecture, standardized risk management (**IEC 60812 FMEA / IEC 61025 FTA / ISO 31000**), and financial principles (**Bachelor of Economics - S.E.**). Proven track record managing operational risk and compliance for nationwide enterprise infrastructure projects, including a **IDR 1.5 Trillion CAPEX** legacy-to-FTTH network migration, and designing high-availability cloud environments under strict **OJK and Bank Indonesia** regulatory standards. Serves as an empaneled subject matter expert providing on-demand technical due diligence for global expert networks (**VisasQ, Coleman Research Group**).

CORE TECHNICAL & RISK DOMAINS

- **Layer 1 Physical Infrastructure:** Subsea & Optical Backbones, FTTH Deployment, ODN Attenuation Limits (\$dBm\$), Field Operational Compliance, Single Point of Failure (SPOF) Isolation.
- **Layer 7 Cloud-Native & DevSecOps:** Multi-Cloud (GCP, AWS, Azure, Alibaba Cloud), Kubernetes (GKE/EKS/AKS), TR-069 Auto-Provisioning, AAA RADIUS, GitOps (Flux CD), Infrastructure as Code (Terraform, Ansible).
- **Standardized Risk Engineering:** Failure Mode and Effects Analysis (**IEC 60812 FMEA**), Fault Tree Analysis (**IEC 61025 FTA**), Risk Priority Number (RPN) Calibration, **ISO 31000 Risk Management Frameworks**.
- **Financial & Regulatory Compliance:** Bachelor of Economics (S.E.), OJK & Bank Indonesia Regulatory Standards, Order-to-Cash (O2C) Latency Analysis, EBITDA Leakage Mitigation, Unit Economics Optimization.

PROFESSIONAL TIMELINE**Global Expert Networks & Consulting****Empaneled Industry Advisory Council Member (VisasQ Inc. & Coleman Research Group)**

Sept 2025 – Present

- Provide technical evaluations and due diligence insights on cross-layer telecom infrastructure (Layer 1 subsea/optical physical assets to Layer 7 cloud-hosted BSS/OSS) for institutional investors and PE firms.
- Advise enterprise clients on system fault isolation using **IEC 60812 FMEA** and **IEC 61025 FTA** to eliminate Single Points of Failure (SPOF) and mitigate operational EBITDA leakage.
- Operating on an on-demand, non-operational advisory basis (**<5 hours/year**) with 100% compliance with strict NDA and MNPI (Material Non-Public Information) frameworks.

Enterprise Advisory Consultant (PT Altha Dyanusa Consulting)

Oct 2024 – Feb 2025

- Developed enterprise cloud architecture blueprints, IT risk governance frameworks (**ISO 31000**), and multi-cloud modernization strategies for institutional clients.

Senior Enterprise Architect & DevSecOps Lead**Technical Engagements & High-Scale Consulting Contracts**

Feb 2015 – Dec 2022

- **Head of IT DevOps | PT. Meteor Inovasi Digital (Sep 2022 – Dec 2022)**
Led multi-cloud infrastructure migration (AWS, GCP, Alibaba Cloud) using Terraform and Kubernetes, improving system reliability metrics by 40% and enforcing IaC governance.
- **Principal DevSecOps Consultant | PT. Kredit Pintar Indonesia (FinTech) (Jul 2022 – Sep 2022)**
Architected GitOps workflows (Flux CD) on Alibaba Cloud for high-frequency financial platforms. Maintained 99.9% uptime SLAs while meeting **OJK & Bank Indonesia** compliance through container hardening and automated audit logging.
- **DevOps & Infrastructure Consultant | PT. Tri Adi Bersama - Anteraja (Nov 2021 – Jul 2022)**
Managed high-availability GKE/EKS infrastructure supporting 120+ microservices during peak logistics traffic. Integrated automated SAST/DAST (OWASP ZAP, SonarQube) in CI/CD, reducing critical vulnerabilities by 60%.
- **Enterprise ERP Migration Architect | PT. Hashmicro Solusi Indonesia (May 2020 – Oct 2020)**
Executed cloud migration of core Odoo ERP systems to AWS EC2 via Terraform, cutting deployment setup times by 50%.
- **DevOps Infrastructure Consultant | PT. Lentera Bangsa Benderang (FinTech) (Jun 2019 – Sep 2019)**
Restructured containerized cloud environments (Docker, Jenkins, ELK Stack), accelerating deployment speed by 40%.
- **Network Architecture Consultant | PT. Dimension Data Indonesia (Feb 2015 – Jun 2015)**
Optimized core enterprise MPLS backbone networks for major banking clients using SolarWinds telemetry.

Principal Operational and Compliance Manager

PT. Telkom Akses (Telkom Indonesia Group)

Apr 2013 – Oct 2014

- **IDR 1.5 Trillion CAPEX Governance:** Directed operational compliance and field execution for a nationwide **IDR 1.5 Trillion CAPEX** legacy-copper to FTTH optical network migration program. Served as the primary bridge between executive strategy and field engineering.
- **Standardized Risk Implementation:** Enforced **ISO 31000** and **IEC 60812 FMEA** risk protocols across physical field execution, reducing regulatory compliance violations by 20% with zero asset loss during nationwide deployment.
- **Core Data Pipeline Integration:** Built ETL integration workflows (Oracle, PostgreSQL, SOAP APIs) linking physical field operations with core BSS/OSS backend platforms (I-Sisca, TenOSS), boosting reporting efficiency by 15%.

Early Infrastructure & Network Engineering

- **EduTech Practice Lead / Instructor** | Jul 2020 – Present (Part-time DevSecOps curriculum design with Telkom Prima & Cilsy Fiolution)
- **EDP Lead** | Circus Waterpark Bali | Jan 2013 – Mar 2013 (Automated POS & network firewall architecture)
- **Customer Support & Network Specialist** | Biznet Networks | Oct 2011 – Oct 2012 (Enterprise optical network troubleshooting & CRM integration)

EDUCATION

- **Bachelor of Economics (S.E.)** | Mercu Buana University (2015 – 2018) — GPA: **3.17 / 4.00**

CERTIFICATIONS

- **Google Cloud Certified:** Professional Cloud Architect (ID: *ac6c40d564fc4911b48506b04f269dac*)
- **Google Cloud Certified:** Associate Cloud Engineer (ID: *55864fb403294d648d9d2130326a0842*)
- **AWS Certified:** Generative AI Practitioner - Cloud Quest (ID: *319f538b-8769-4719-b93f-29b81814900c*)
- **AWS Certified:** Cloud Practitioner (ID: *YT3X1MX1VFBE1K5V*)
- **Cisco Certified:** DevNet Associate (ID: *1987298840-45/PROA/BLSDM.Kominfo/2024*)
- **Cisco Certified:** CyberOps Associate (ID: *0447256131-103/OA.DTS/BLSDM.KOMINFO/2020*)

ADVANCED TRAINING & SPECIALIZATIONS

- **Microsoft Azure AI & Data Engineering Track:**
 - *Ai-102:* Designing & Implementing Azure AI Solutions (Generative Ai, Knowledge Mining & Enterprise Architecture)
 - *DP-100:* Designing & Implementing Data Science Solutions on Azure
 - *Ai Agents:* Autonomous Agent Development via Azure OpenAi & Semantic Kernel SDK
- **Cognitive Services & Natural Language Processing (NLP):**
 - *Ai-3003:* Azure Natural Language Processing | *AI-3004:* Computer Vision Solutions | *AI-3002:* Document Intelligence Automation
- **Cloud-Native DevSecOps & Security Architecture:**
 - Azure DevOps Pipeline Security Automation, Serverless Azure Container Apps, GitHub Copilot Integration
